Select and Download a Template

Choose a dinosaur species that fits your project theme and skill level. Download the high-resolution PDF or physical stencil.

Prepare Your Workspace and Materials

Lay out your cardboard sheets, tools, and protective coverings for your workspace. Gather all necessary tools and materials.

Trace the Template onto Cardboard

Using a pencil or marker, carefully trace the template outline onto the cardboard. For multiple cutouts, consider using a lightbox or window for tracing.

Cut Out the Pieces

With a sharp craft knife or scissors, carefully cut along the traced lines. For detailed areas, a craft knife provides precision.

Add Details and Texture

Enhance the cutouts with additional details such as scales, ridges, or facial features using markers or paint. You can also cut out smaller pieces for eyes or claws.

Assemble the Dinosaur

If your template includes multiple parts, fold and glue them together as per instructions. Use tabs to connect limbs or tails securely.
